FROM OUR *Founder*

Thank you for attending our Wine Women and Shoes event today! We are very grateful for your support as we work to make Southwest Florida the safest place in the world to receive a cancer diagnosis. Our second opinion services are very much doing this with the emphasis on helping patients to have an outstanding plan of care from the outset.

Dr. William Barrett
*Founder of Naples
Cancer Advisors*

Great care begins with a great plan, and it is our privilege to help patients and their oncologists be confident that every consideration has been explored and that patients are educated and empowered, and their physicians are performing at their best.

“ No one wants the diagnosis of cancer, but if you have to face this adversary, we want Southwest Florida to be the very best place to receive the care you need. Naples Cancer Advisors helps patients and families have confidence in an excellent plan of care from the start. ”

Dr. William Barrett

Who We Are

OUR MISSION

Dedicated to minimizing the suffering and mortality associated with cancer in Greater Cincinnati and Southwest Florida.

OUR VISION

To be a leading catalyst in cancer care by ensuring access to expert guidance, education, and advocacy. We strive to empower patients and providers with innovative solutions and compassionate support- at no cost to them.

OUR SERVICES & VALUE

What truly sets Naples Cancer Advisors apart is the value of the services we offer—at no cost to patients. From first and second opinions to financial advocacy, genetic testing and counseling, and navigation services, we provide expert guidance that empowers families to make the best decisions about their care. By helping patients understand their diagnosis and treatment options, we not only relieve fear and uncertainty. We also build trust, confidence, and capacity in our local health system. Families are able to stay close to home for their care, surrounded by their loved ones, while knowing they have the same level of expertise available as at larger academic centers.

Guided by innovation

Our broad portfolio of innovative tests focuses on answering critical clinical questions. Our tests are designed to deliver personalized information that better informs care decisions.

Who We Are

POWERED BY WOMEN LIKE YOU

The work of Naples Cancer Advisors is powered by the Cincinnati Cancer Foundation, Inc., which is sustained entirely by the generosity of the community. Every dollar raised stays local and ensures that patients can access world-class consultative oncology without cost or barrier in Southwest Florida. Naples represents a living example of what happens when mission and community come together. From skyline to sunshine, we are meeting the needs of cancer patients across the region, ensuring no one faces cancer alone.

GROWING WITH OUR COMMUNITY

Since opening in 2023, our Naples Cancer Advisors office has grown into a thriving hub of innovation and care—proving what’s possible when mission and community come together. Today, our network includes six physicians and four nurse practitioners across our sites, with plans to add another physician and nurse practitioner in the coming months. In Naples, this growth is reflected in our on-site team.

Outreach

Nikki Audia, BS, RRT, NPS

Director of Philanthropy &
Community Engagement

Born and raised in Naples, Florida, Nikki Audia has built her career on a foundation of healthcare, compassion, and advocacy. She holds a Bachelor's degree in Cardiopulmonary Science and an Associate's degree in Respiratory Therapy. Nikki has cared for patients across the hospital setting—from the ER and ICU to the NICU—gaining a deep understanding of how critical moments shape lives.

Her clinical experience naturally evolved into advocacy, where she has become a dedicated voice for patients and families. Now, in her role with Naples Cancer Advisors, Nikki brings together her medical expertise, advocacy experience, and lifelong Naples roots. This role is a natural extension of her journey: uniting her healthcare background with her passion for ensuring families in Southwest Florida and beyond have access to expert opinions, compassionate support, and a foundation of care that truly changes lives.

CAN WE COUNT YOU IN FOR MONTHLY GIVING?

Count Me In is about the power of small, consistent giving. When many people step up with a **monthly commitment**, those combined contributions create the foundation that ensures no patient or family has to face cancer alone.

Every monthly gift stays right here in our community, directly supporting free, first and second opinions, trusted navigation through the cancer journey, and unbiased clinical support—all provided locally to families in need. Together, we are proving that even the smallest gift, given consistently, creates life-changing impact.

“ Our work is sustained entirely by the generosity of this community. Every dollar raised stays local and ensures patients can access world-class oncology care without cost or barrier.

Southwest Florida represents a living example of what happens when mission and community come together. From skyline to sunshine, we are meeting the needs of cancer patients across the region, ensuring no one faces cancer alone. ”
